## **UNAUDITED QUARTERLY FINANCIAL DISCLOSURE STATEMENT As at 30 September 2020**

### **1. PILLAR 3 DISCLOSURE (CONTINUED)**

#### **b. Template OV1: Overview of RWA**

The capital adequacy ratios of the Company were calculated in accordance with Banking (Capital) Rules of the Banking Ordinance. The Company uses the following approaches to calculate its capital charge for:

- (a) credit risk: Standardised (Credit Risk) Approach (“STC approach”); and
- (b) operational risk: Basic Indicator Approach (“BIA approach”).

There was no RWA for market risk for the Company because the Company was exempted by the HKMA from the calculation of market risk.

The disclosure on minimum capital requirement is made by multiplying the Company’s RWA derived from the relevant calculation approach by 8%, not the Company’s actual “regulatory capital”.
