

Trusted Guidance for Endowments and Foundations

Partnership Built on Service, Access and Independence

Choosing the right partner for investment consulting is one of the most critical decisions facing the boards of endowments and foundations. To be effective stewards of the financial resources entrusted to them, boards need their consultants to do more than just build portfolios and select asset managers. Boards need partners who can protect and grow assets in a way that aligns with the organization's mission, as well as strengthen the organization's ability to connect with donors.

Graystone Consulting is committed to providing trusted advice and customized solutions to endowments and foundations. We deliver the high-touch service you would expect from a boutique, and the resources and access that come from being backed by a global leader in financial services.

The Graystone Consulting Advantage

1

Guiding you through complexity

We provide customized, innovative, flexible solutions to help endowments and foundations meet their most sophisticated financial needs. We shine a bright strategic light on your institutional investment challenges and goals. We partner with your board to create an intelligent path to reach your objectives while deftly navigating constantly evolving market conditions.

3

Providing you with boutique service on a global scale

We combine the fresh thinking, nimbleness and spirit of a modern consulting boutique with the deep knowledge and experience of Morgan Stanley. You'll get experienced advisors who take the time to truly understand you and your organization, develop innovative strategies to address your challenges, and build a long-term partnership based on trust.

2

Giving you an independent and objective fiduciary partner

Our extensive open investment architecture platform empowers us to deliver objective, unbiased advice and maintain complete fiduciary independence. We work solely for your interests to help you build lasting financial security for your organization, your mission and your people.

4

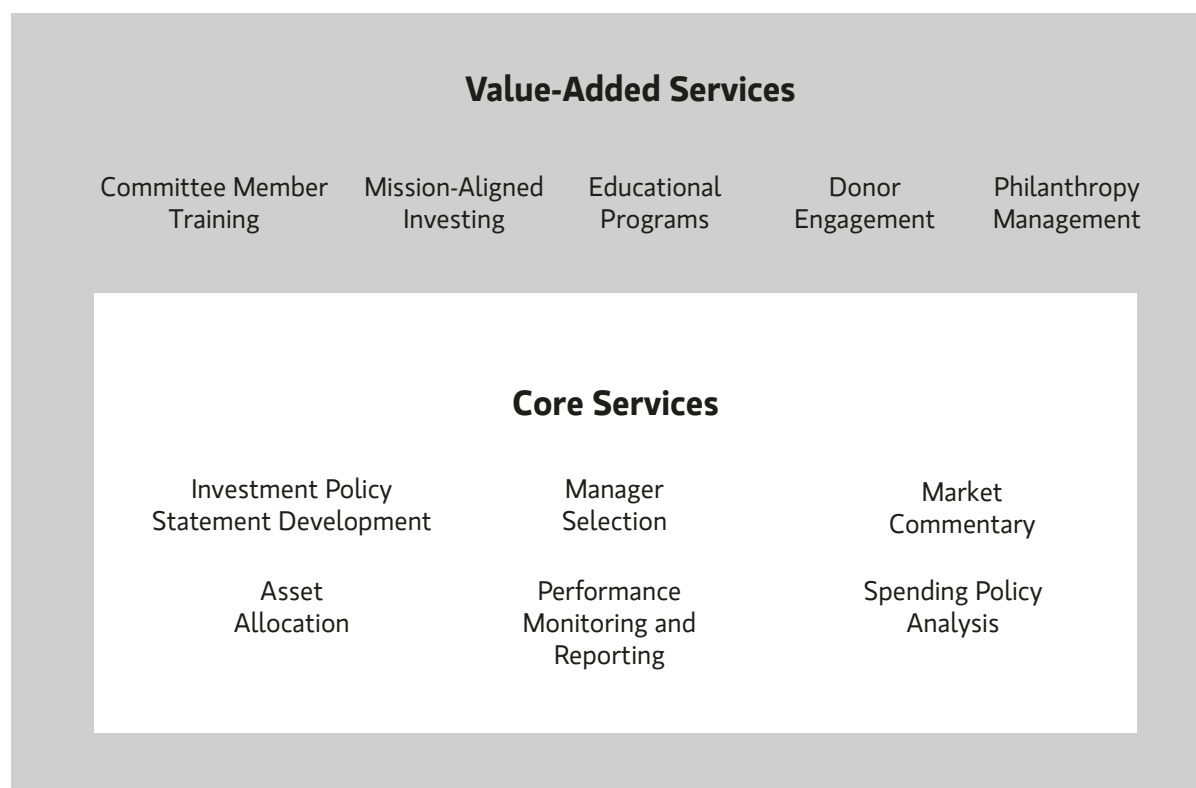

Connecting you to all the resources of Morgan Stanley

We put the financial resources of Morgan Stanley's vast research network to work for you. That means we can help our clients more effectively react to financial events around the world with confidence.

Delivering More Than Just Investment Results

The value we deliver for endowments and foundations extends far beyond the impact we have on their investment portfolios. In addition to our core investment services, we draw on our knowledge of the non-profit sectors we serve and the broader philanthropic landscape to strengthen our clients' holistic operations.

High-Touch Service and Customized Solutions

Responsiveness, access and personalization are the foundations of our client-service model. Our consultants are always available to answer your questions because the demands facing endowment and foundation board members don't follow a 9-to-5 schedule.

We know that no two organizations have the same needs. Through long-tenured relationships and in-depth conversations, we deliver portfolios and solutions that are tailored to the unique opportunities and challenges facing each organization.

Donor Engagement Advice and Support

Based on our knowledge of trends in charitable giving, we provide advice on engaging the next generation of donors and optimizing fundraising efforts. We also guide foundations and donors on how to maximize the impact of their gifts through donor-advised funds, charitable trusts and other giving vehicles.

Philanthropy Management

Our endowment and foundation clients benefit from the philanthropic consulting services of Morgan Stanley's Philanthropy Management group. Founded in 1998, this group works with public and private foundations and other non-profits to ensure the strategic growth and development of their charitable mission.

Formulating Mission and Gifting Strategy

We work with foundations to help them craft or redefine their charitable missions and broader strategy. For private (family) foundations, we help them develop grant-making policies and vet recipients.

Strengthening Operations and Governance

We help non-profits of all sizes maximize their organizational effectiveness. Our services include assisting in the hiring and training of staff, identifying high-impact board members, engaging volunteers, and facilitating board retreats.

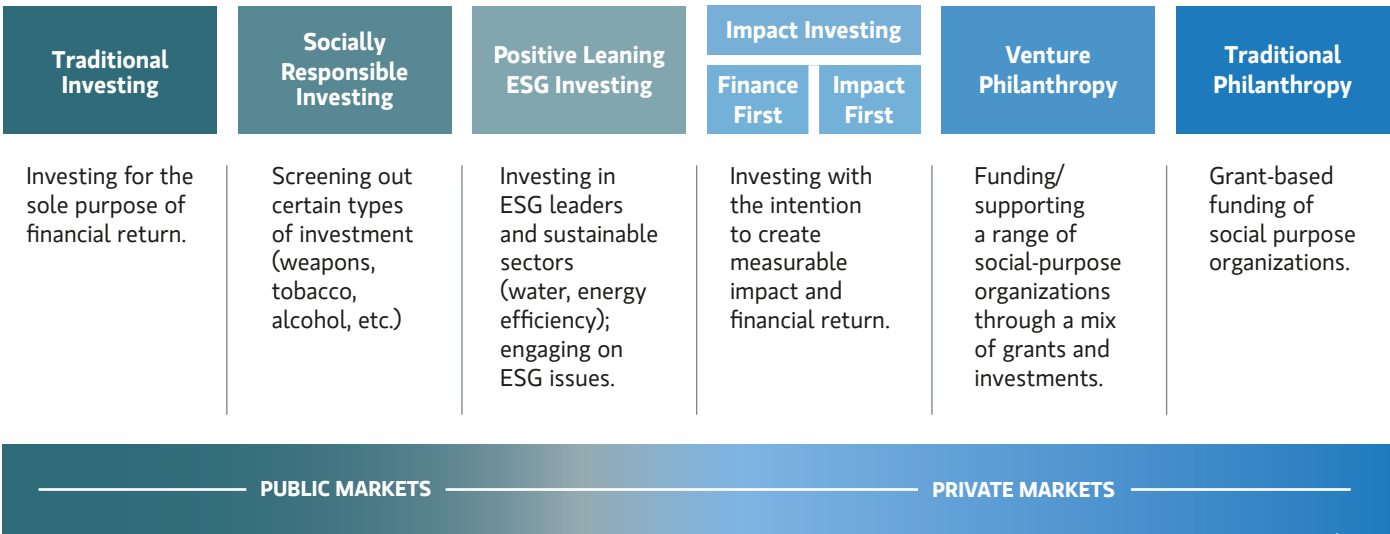

Fostering Connections

A non-profit organization's impact is amplified by the strength of its network. Drawing on our network throughout the non-profit community, we foster connections with like-minded individuals and organizations. This effort includes hosting conferences and networking events.

Aligning Your Investments With Your Values

The assets of an endowment or foundation can do more to support the organization’s broader mission than simply providing funds for the operating budget. Boards and their investment committees are increasingly looking for ways to ensure that the companies, governments and projects in which the organization is investing are using that capital in a way that aligns with the organization’s larger mission.

Spectrum of Approaches for Mission-Aligned Investing

Investing with Impact: Launched in 2012, Morgan Stanley’s Investing with Impact is the first wealth management platform led by a major financial institution dedicated to giving investors a suite of investment options tailored to their values and impact goals. It includes a range of investments across public and private markets, in addition to customized portfolios, donor-advised fund impact pools and access to capital market opportunities, including green bonds. With more than 150 investment strategies across asset classes and additional customizable opportunities, institutions can advance broad sustainability solutions as well as mitigate climate change; support diversity, equity and inclusion; and promote economic development through their investment portfolios.

Sustainable Investing: The Morgan Stanley Institute for Sustainable Investing was founded

in 2013 to accelerate the adoption of sustainable investing, produce informative insights and develop the next generation of sustainable finance leaders.

Impact Reporting: Morgan Stanley’s proprietary suite of Impact Reporting tools allows our clients to identify their unique impact preferences, assess their investment portfolio’s alignment with those specific criteria and monitor the progression of the portfolio over time toward their broader objectives. The Morgan Stanley Impact Quotient® delivers multidimensional impact reporting, including any exposure to issues of concern.

Diversity & Inclusion: Morgan Stanley formalized a Diversity and Inclusion Committee in 2020 with the dual goal of driving internal change and enhancing investment offerings for our clients.

Global Access and Unwavering Objectivity

As part of Morgan Stanley, we provide endowments and foundations with access to one of the industry's leading investment platforms. We combine this breadth of access and depth of manager research with an unwavering commitment to delivering independent, objective advice.

Conflict-Free Advice and Transparent Fees

Our business model empowers us to focus solely on what's best for our clients. We don't recommend any internal Morgan Stanley products or managers unless specifically requested by clients, and we don't accept compensation from third-party investment managers for inclusion in our database or client portfolios. We don't charge an advisory fee on cash or placement fees on private investments. This approach allows us to provide complete transparency into our fees so clients know exactly what they are paying for.
